It has come to my attention that the Revere Copper and Brass case has been slated for alternative dispute resolution proceedings in the near future. To prepare for these proceedings, several documents need to be prepared. First, an On-Scene Coordinator report needs to be prepared. Second, a title search of the property should be obtained. It is my understanding that one was ordered, but I have not seen it yet. Third, the PRP search report needs to be finalized. Finally, cost documentation for the removal needs to be gathered. A SPER has been prepared which is current through May 27, 1988. Additional relevant documentation needs to be gathered, i.e. Action Memorandum, in preparation for alternative dispute resolution proceedings. Your assistance in expediting the preparation of these documents and gathering this information is greatly appreciated. If you have any questions, please feel free to contact me at 3-1027.
